Dear Dr. Shrock,

A quick note to thank you for the work you did on my ankle/leg. It still hurts a little, but is improving with more & more exercise.

I thought I would include a copy of this picture, you removing the screw from where it was dislocated. Hopefully, it will not be too long before I can learn to Skydive properly!!

Cheers, & Thank you very much,
Yours sincerely,

A handwritten signature in black ink that reads "Mark Barton". The signature is stylized, with the first name "Mark" written in a cursive-like font and the last name "Barton" written in a more blocky, slightly slanted font. There is a horizontal line drawn through the signature.

Mark Barton.
